§52.3301 Purpose and Intent

The Council for the City of San Diego finds and declares that:

- (a) Use of *Federal Schedule I Drugs, Novel Synthetic Drugs, and Novel Psychoactive Drugs* has been documented to cause effects such as hallucinations, agitation, psychosis, aggression, suicidal ideations and death, a significant increase in medical aid emergencies, and may also lead to an increase in associated criminal activity. Some of these drugs are commonly known as “spice” or “bath salts.”
- (b) Although state and federal laws prohibit some synthetic drugs, drug makers continually alter the composition of the compounds in their products so as to escape the purview of the law.
- (c) While newly created drugs often go unregulated in California for years, many new drugs receive emergency scheduling in the federal drug schedules within months of their discovery.
- (d) The purpose and intent of this Division is to provide the City with reasonable measures to address the dangers to the community posed by *Federal Schedule I Drugs, Novel Synthetic Drugs, and Novel Psychoactive Drugs*.
- (e) This Division is not intended to apply to any drug or chemical compound already regulated or prohibited by California law or approved by the United States Food and Drug Administration and dispensed or possessed in accordance with state and federal law.
(“Purpose and Intent” added 6-14-2016 by Emergency Ordinance O-20660 N.S.; effective 6-14-2016.)
(“Purpose and Intent” added 6-15-2016 by O-20657 N.S.; effective 7-15-2016.)

- (1) Marketing: The product is not suitable for its marketed use (such as a crystalline or powder product being marketed as “glass cleaner”);
- (2) Sales Location: The business providing, displaying for sale, distributing or selling the product does not typically provide, distribute or sell products that are used for that product’s marketed use (such as a liquor store selling “plant food” or “potpourri”);
- (3) Warning Labels: The product contains a warning label that is not typically present on products that are used for that product’s marketed use (such as “not for human consumption,” or “does not contain chemicals banned by the Federal Controlled Substances Act, Cal. Health & Safety Code § 11357.5 or § 11375.5”);

- (5) Similarity to Illicit Street Drugs: The product resembles the form or consistency of an illicit street drug (such as cocaine or methamphetamine);
- (6) Brand Names Targeting Youth: The product's name or packaging uses images or slang targeted at youth or referencing an illicit street drug (such as Eight Ballz, Green Buddha, Black Mamba, Fruit Punch, Joker, K-2, Next Generation, OMG, Puff, Purple Diesel, Scooby Snax Potpourri, Spice, Strawberry Smacked, or Tropical Punch Smacked);

- (8) Distribution: The methods by which the substance is distributed, including any methods similar to unlawful distribution of illicit street drugs;
- (9) Display: The product is not displayed in a business such as lawful products are displayed but is hidden away or can only be purchased through secretive means;
- (10) Age Restrictions: The product label contains a restriction that it is not for sale to minors or anyone under the age of 18 when the product's marketed use would not contain such restrictions;
- (11) Verbal or Written Communication: Verbal or written representations regarding the purpose, methods, use, or effect of the product.

Disclaiming a *Federal Schedule I Drug*, a *Novel Synthetic Drug*, or a *Novel Psychoactive Drug* as "not safe for human consumption" will not avoid the application of this Division.
